

Program Overview

- GSEP students belong to the Department of Transdisciplinary Science and Engineering (TSE) which includes science, engineering, and management courses. Subjects are transdisciplinary (i.e., not limited to a specific field).
- GSEP is an English-based program for international students.
- GSEP students earn a degree of Bachelor of Engineering from TSE Department after they have completed all the units and course requirements in the undergraduate program.

TSE Dept. Website : <http://educ.titech.ac.jp/tse/eng/>

GLOBAL SCIENTISTS AND ENGINEERS PROGRAM FACTS AND FIGURES

In April 2016, Institute of Science Tokyo (formerly Tokyo Institute of Technology) started the Global Scientists and Engineers Program (GSEP) in the Department of Transdisciplinary Science and Engineering.

01 Number of students accepted

151 students

Male
70%

Female
30%

02 Nationalities in GSEP

03 Research Interests

(Independent Research Project, 4th year)

GSEP students have shown varied research interests when they did their IRPs in their final year in the university.

04 Number of students graduated

After completing the necessary requirements, GSEP students can graduate from Science Tokyo with a bachelor's degree in engineering.

As of 2026 Mar

87 students

05 Post-Graduation Paths

After their graduation, it is very common that our students continue to graduate studies in Science Tokyo or other universities.

TSE Curriculum (Undergraduate)

Supervised research

1 st year	2 nd year				3 rd year				4 th year			
Q1-4	Q5	Q6	Q7	Q8	Q9	Q10	Q11	Q12	Q13	Q14	Q15	Q16

GSEP Curriculum

➤ GSEP follows the TSE curriculum

100番台 | 100-Level

200番台 | 200-Level

300番台 | 300-Level

線形代数第一 Linear Algebra I
線形代数学演習第一 Linear Algebra Recitation
微分積分学第一 Calculus I
微分積分学演習第一 Calculus Recitation I
力学基礎 1・2 Fundamentals of Mechanics 1 / 2
電磁気学基礎 1・2 Fundamentals of Electromagnetism 1 / 2
量子化学基礎 Basic Quantum Chemistry
無機化学基礎 Basic Inorganic Chemistry
有機化学基礎 Basic Organic Chemistry
化学熱力学基礎 Basic Chemical Thermodynamics
生命科学基礎第一・2 Fundamentals of Life Science 1 / 2
初年次専門科目 First-Year Courses
数理基盤群 FUNDAMENTALS OF MATHEMATICS
常微分方程式と物理現象 Ordinary Differential Equations and Physical Phenomena
偏微分方程式と物理現象 Partial Differential Equations for Science and Engineering
線形システム論 Theory of Linear Systems
統計とデータ解析 Statistics and Data Analysis

工学基盤群 FUNDAMENTALS OF ENGINEERING
材料・物性工学基礎 Material and Molecular Engineering
固体・構造力学基礎 Solid Mechanics and Structural Engineering
電気・磁気工学基礎 Electrical Engineering
熱力学基礎 Engineering Thermodynamics
流体工学基礎 Fluid Engineering
生物工学基礎 Biological Engineering
工学計測基礎第一、第二 Engineering Measurement I・II
融合理工学実験A Transdisciplinary Engineering Experiments A
融合理工学実験B Transdisciplinary Engineering Experiments B
共創基盤群 FUNDAMENTALS OF CO-CREATION
融合理工学基礎 Introduction to Transdisciplinary Science and Engineering
システムデザインプロジェクト System Design Project
融合デザインプロジェクト Transdisciplinary Design Project
システムデザイン&アセスメント System Design & Impact Assessment
プロジェクトマネジメント Project Management

専門科目群 ELECTIVE COURSES
融合理工学とデータサイエンス (I)・(II) Date Science for Transdisciplinary Research (I)・(II)
プログラミングと数値解析基礎 Programming and Numerical Analysis
プログラミングと数値解析応用 Applied Programming and Numerical Analysis
通信とネットワーク Communications and Networks
電磁気学 (融合理工) Electromagnetics (TSE)
環境流体力学基礎 Basis of Environmental Hydrodynamics
防災工学基礎 Introduction to Natural Disaster Science and Engineering
剛体の運動力学 Rigid Body Dynamics
強度の力学 Mechanics of Strength
操作論 Unit Operations
工業化学 Industrial Chemistry
実用材料の冶金学基礎 Introduction to Metallurgy of Engineering Materials
機械設計基礎 Fundamentals in Mechanical Design of Machinery
原子核工学概論 Introduction to Nuclear Engineering
原子核工学基礎 第1～第4 Basic Nuclear Engineering 1-4
社会環境政策概論 Introduction to Environmental Policy and Social Systems
水・物質循環システム概論 Introduction to Water and Mass Transport in the Environment
気象学基礎 Introduction to Meteorology

地球・地域生態学概論 Introduction to Global and Local Ecology
地域・地球環境概論 第1&第2 Basic Theory of Regional and Global Environment 1 and 2
国際開発共創概論 Introduction to International Development
応用経済学概論 Principles of Economics for Environment and Society
起業家精神とデザイン思考 Design Thinking in the Entrepreneurial World
国際エンジニアリングデザインプロジェクト基礎F&S International Engineering Design Experience (Fall Semester and Spring Semester)
エネルギーシステム設計基礎論 Foundations of Energy Systems Design
資源・エネルギー工学概論 Theory of Resource and Energy Engineering
エネルギーと環境 (融合理工) Energy and Environment (TSE)
リモートセンシング概論 Introduction to Remote sensing
社会と生態系のモデリング Modeling of Society and Ecology
特定課題研究・特定課題研究プロジェクト など RESEARCH OPPORTUNITIES AT LABORATORIES, INDEPENDENT RESEARCH PROJECTS, INTERNSHIPS, ETC.
研究プロジェクト (融合理工学系) Research Opportunities at Laboratories (TSE)
学士特定課題研究 (融合理工学系) Independent Research Project (TSE)
学士特定課題プロジェクト (融合理工学系) Advanced Independent Research Project (TSE)
国際プロジェクト演習 Exercises in International Development Engineering
融合理工学海外研修 International Training in Transdisciplinary Science and Engineering
融合理工学インターンシップ Transdisciplinary Science and Engineering Internship

➤ Many of the core courses will be conducted through **Project-Based Learning (PBL)** or **hands-on** formats covering various fields of science and engineering.

➤ In their final year, GSEP students join a **laboratory (research group) of TSE** where they will do their Independent Research Projects.

Sample research fields (not limited to):

Mechanical Eng., Civil Eng., Electronic and Communication Eng., Nuclear Eng., Energy and Environment, Social Sciences, Life Sciences, etc.

Japanese language and culture courses

(Science and Engineering Fields)

Summary of Japanese courses

Types of students	Japanese level	Learning objectives	Number of courses offered per year	
Graduate / Exchange students	Basic (4 levels)	Everyday conversation / Understanding Japanese society	47 courses	55 courses for specific skills
	Intermediate (8 levels) ~ Pre-advanced	Continued improvement in Japanese language skills / Understanding Japanese society	40 courses	
Undergraduate students	Advanced	Improving academic writing and lecture comprehension skills	29 courses	
	GSEP: Basic ~ Intermediate	Everyday conversation / Understanding Japanese society		
Intensive Japanese course	Basic ~ Intermediate (Intensive)	Preparing to study in Japan, etc.	—	

Japanese study support for international students

●Nihongo Space (@12:40 ~ 14:00 on every Wed/Thu)

Japanese teachers are assigned on each day

- Conversation practice with Language Partners who are students at our institute
- Personal tutorials: Advice on studying Japanese and writing correction
- Support for self study
- Various Japanese language / culture events

Conversation practice

Event: Star festival

Experiencing
Japanese calligraphy

“Who could fit to GSEP ?”

“Someone curious. GSEP gives an opportunity to get exposed to diverse topics, and learn with students from different backgrounds. In my opinion, someone curious and open-minded would perfectly fit in such an environment.”

By a Mongolian GSEP alumnus

“Based on my opinion, someone interested in science and technology and looking for a career in business and management could highly benefit from GSEP. If you are keen to learn a new thing and explore different opportunities, GSEP would be the right step to take a chance on all of it.”

By a Thai GSEP alumnus

Recent graduation day photo (March 2026)

Important Dates for GSEP 2027 Admissions

Application Period : August 13-22, 2025

Official 2027 guideline will be available in mid-July 2026.

The guideline for last year is available here:

<https://www.titech.ac.jp/english/admissions/prospective-students/application-guides#gsep>

1

Check Applicant Eligibility

Please refer to the GSEP website for the eligibility criteria.

2

Prepare Application Documents and Pay the Application Fee

3

Online Application

August 13-22, 2025

Apply by filling in the required items and uploading documents on the online application form.

4

Evaluation of Application Documents

Results of 1st Screening: Mid September 2025
2nd Screening: October 2025

5

Announcement of Admissions Results

Results will be announced in November 14, 2025

Enrollment and Start of Semester:

For the successful applicants, enrollment procedures start on Middle of March, 2027 and Spring Semester starts on April 1, 2027

Fees, Scholarships and Financial Support

	Admission fee	Tuition fee (per year)	Application fee
Fees	JPY 282,000 USD ≈\$1,770*	JPY 635,400 USD ≈\$4,000*	JPY 17,000 USD ≈\$107*

* Assumed exchange rate:
\$1≈JPY159

Japanese Government MEXT (Monbukagakusho) Scholarship

- The eight applicants for the GSEP program will be awarded the MEXT scholarship for four years.
- These students will be exempted from paying the application, admission, and tuition fees.
- Each grantee of MEXT undergraduate scholarship will be provided monthly with JPY 117,000.
- Qualification and condition of MEXT undergraduate scholarship:

http://www.titech.ac.jp/english/graduate_school/international/gsep/mext_scholarships_for_gsep.html

Japan Student Services Organization (JASSO) Scholarship

- JASSO is an independent administrative institution established under MEXT that administers scholarship loan programs, support programs for international students, and student support programs.
- Recipient of JASSO scholarship will receive monthly stipend of JPY 48,000.
- More information about the JASSO scholarship is found at:

http://www.jasso.go.jp/en/study_j/scholarships/brochure.html

Others (Private Scholarships, Tuition fee waivers, etc.)

- Even if an applicant is not selected to receive the MEXT or JASSO scholarships, other scholarships are available.
- There are many scholarships available for outstanding international students at Science Tokyo

GSEP Events

Available Accommodations for Students

For the first year, accepted students are strongly encouraged to reside together with other GSEP students (but in a private room) at **Umegaoka Dormitory**, where fees are quite reasonable and inexpensive.

From the 2nd year, students may move to

- Shofu Dormitory
- Minami-Shinagawa Dormitory (female, option from 2nd year)
- Senzokuike Dormitory (female, option from 2nd year)
- Or private apartment. At present, the majority of international students live in private apartments.

For more information about dormitories and accommodation arrangements, visit the website below:

http://www.titech.ac.jp/english/graduate_school/support/dormitories/
