

GLOBAL SCIENTISTS AND ENGINEERS PROGRAM

FACTS AND FIGURES

In April 2016, Institute of Science Tokyo (formerly Tokyo Institute of Technology) started the Global Scientists and Engineers Program (GSEP) in the Department of Transdisciplinary Science and Engineering.

01 Number of students accepted

 **151 students**

Male
70%

Female
30%

02 Nationalities in GSEP

03 Research Interests

(Independent Research Project, 4th year)

GSEP students have shown varied research interests when they did their IRPs in their final year in the university.

04 Number of students graduated

After completing the necessary requirements, GSEP students can graduate from Science Tokyo with a bachelor's degree in engineering.

As of 2026 Mar

87 students

05 Post-Graduation Paths

After their graduation, it is very common that our students continue to graduate studies in Science Tokyo or other universities.
